

High-resolution microscopy

Item	Location
Ring-TIRF microscope with FRAP and Ablation	Campus Saarbrücken, Bldg. B2.1, 2nd Floor, Room 2.04 (Planned in the new building of the Center for Biophysics)
LSM 900 confocal laser scanning microscope	Campus Saarbrücken, Bldg. B2.1, 2nd Floor, Room 2.04 (Planned in the new building of the Center for Biophysics)
AcCellerator	Campus Saarbrücken, Bldg. E2.6, 3rd Floor, Room 3.13 (Planned in the new building of the Center for Biophysics)
Atomic force spectroscopy (AFM) for biological samples	Campus Saarbrücken, Bldg. E2.6, 3rd Floor, Room 3.28 (Planned in the new building of the Center for Biophysics)
Confocal microscope (under acquisition)	Campus Saarbrücken, Bldg. B2.2, 2nd Floor, Room 2.32
Epifluorescence microscope with confocal mode (under acquisition)	Planned in the new building of the Center for Biophysics
Confocal laser scanning microscope with LiveCellSTD and white light laser (under acquisition)	Planned in the new building of the Center for Biophysics
Two-photon microscope (under acquisition)	Planned in the new building of the Center for Biophysics
