

## Anorganisches Kolloquium Sommersemester 2025

- 08.05.2025    Luisa Giarrana (AK Scheschkewitz)  
**Direct and Indirect Grafting of Transition Metals to Siliconoids**
- 15.05.2025    Aaron Haben (AK Kautenburger)  
**Method development for the quantification of radionuclide retention in repository-relevant construction and backfill materials**
- 05.06.2025    Prof. Dr. Uwe Ruschewitz / Universität zu Köln  
**Marvelous C<sub>2</sub> Chemistry**
- 03.07.2025    Enric Sabater Berzal (AK Andrada)  
**Bimetallic aluminates and zincates: synthesis, reactivity and mechanistic insights**
- 10.07.2025    Anna Michaely (AK Kickelbick)  
**Mechanochemical Reduction Reactions of Transition Metal Oxides with solid Hydrides and their elemental Counterparts**
- 17.07.2025    Elias Gießelmann (AK Kickelbick / Janka)  
**Synthesis, spectroscopy and the oxidation behavior of intermetallic aluminum compounds**
